

“Soul Transfer” Social Networking Service

In this 21st century, the world has become one in terms of social interaction. However, social interaction among people with different tastes has led to psychological illnesses and addiction. In extreme conditions, there are sleep disorders leading to work-life imbalance. So, how can we overcome the drawbacks of social networking is the question that is addressed in our solution platform called “soul transfer”.

What is a soul transfer platform?

Every human being has problems in their lives. And every problem has a solution. Our human life is very short and most of us live our lives with our problems till the end. So, why not we humans join this movement to let ourselves understand each other’s problems collectively and provide solutions in a spark. Allowing any user to access solutions and letting him know problems everyone has, we call this social platform called soul transfer, where people get enlightenment about life.

“Soul transfer” user interface

Vision of the Soul Transfer platform

To allow everyone to enjoy the freedom of speech and power of words to change billions of lives for the betterment of humanity.
